
Aerosol Propellant Handbook

definitions of "aerosol product" and in various federal ... - aerosol container when the valve is actuated. a propellant is considered flammable if it forms a flammable mixture with air or if a flame is self-propagating in a mixture of the propellant and air. national institute for standards and technology handbook 130 uses but does not define the term "aerosols and similar pressurized containers ... **aerosol propellant - chemours** - aerosol propellant physical properties of hp 152a and n-butane mixtures hp 152a in mixture, wt % pressure, psia 0 20 40 60 80 100 90 80 70 60 50 40 30 20 data sources this study ref. 1 ref. 1 technical information for the full range of hp 152a/b compositions, this bulletin presents the saturated vapor pressures and **current aerosol products division issues and projects update** - for use are followed. the propellant is included in the net quantity statement. national institute for standards and technology handbook 130 10.3. aerosols and similar pressurized containers. - the declaration of quantity on an aerosol package and on a similar pressurized package shall disclose the net **aerosol 101: formulation considerations & testing methods** - aerosol 101: formulation considerations & testing methods sata spring meeting atlanta, ga march 20, 2013 crimp dimensions crimp depth and diameter - proper seal between valve and container "curl". stem height - proper clearance between top of actuator and cap. - proper clearance between valve stem and actuator (dome spray caps). **aerosol anatomy - the aerosol laboratory - experts** - aerosol anatomy - the aerosol laboratory part i focuses on lab design and construction, safety systems, and basic aerosol charging and testing equipment. this series, "aerosol anatomy," will dissect and examine various technical topics in aerosol technology, including product development, new technology, components of **aerosol propellant - chemours** - aerosol propellant technical information introduction hydrofluorocarbon 152a (hfc-152a) is an aerosol propellant containing no chlorine atoms, and, as such, falls completely outside concerns about stratospheric ozone destruction by chlorofluorocarbons or other chlorinated hydrocarbons. it has zero ozone depletion potential (odp), **1 7 revised! aerosol technology - cfpa** - the course director recommends, as optional reading, the text aerosol propellant handbook by dr. jiang guomin, dr. montfort a. johnsen and dr. bernd v braune (hong kong, p.r. of china: cosmos books, ltd.) available through industry publications, inc., 3621 hill road, parsippany, nj **recycling and disposal of aerosol cans - pima county** - recycling and disposal of aerosol cans . technical guidance . this technical guidance document (tgd) describes management options for typical aerosol cans used in industrial or commercial applications. this document is not intended to cover the management and disposal options for materials in compressed gas cylinders and tanks. **pharmaceutical ingredients and excipients** - pharmaceutical ingredients and excipients to produce a drug substance in a final dosage form requires pharmaceutical ingredients. for example ... aerosol propellant agent responsible for developing the pressure within an aerosol container and expelling the product when the valve is opened **additional letters item 231-2: nist handbook 130 uniform ...** - aerosol packaging components, the main difference being in the "bag" attached to the aerosol valve. thirdly, it inaccurate to call the package environmentally more friendly, when in fact, it has additional plastic or metal (from the bag) than a standard aerosol. he makes his claim based, not on the package, but rather on the propellant type ... **de spray aerosol - designed-2-kill** - de spray aerosol material cpi butyl c butyl/neoprene c cpe c respiratory protection type ax filter of sufficient capacity. (as/nzs 1716 & 1715, en 143:2000 & 149:2001, ansi z88 or national equivalent) where the concentration of gas/particulates in the breathing zone, approaches or exceeds the "exposure standard" (or es), respiratory protection ... **first name last name accreditations/recertifications ...** - aerosol products by federal, state and local governments will be covered on the fourth day, together with toxicology and safety considerations. recommended reading the course director recommends, as optional reading, the text aerosol propellant handbook by dr. jiang guomin, dr. montfort a. johnsen and dr. bernd v braune (hong **aerosols and similar pressurized containers - nist** - declare the net contents of aerosol preparations that would be liquid if not combined with the propellant and a net weight statement in avoirdupois units for products that would be solids if not combined with a propellant. committee does not believe that guidelines can preempt a uniform regulation developed under the technical
